ELECTRONIC PRESCRIPTION SERVICE (EPS)

NHS
Electronic
Prescription
Service
Available here

EPS is a service for *non-dispensing patients* only.

It allows your prescription to be sent electronically by a doctor to a pharmacy without the need to print it.

You will need to nominate the pharmacy you want your prescription to be sent to - this then becomes your nominated pharmacy.

This information will be recorded in your medical record on our system so that your prescriptions always go to that pharmacy.

You can only nominate **one** pharmacy !

You can complete a green slip at our Reception desk to nominate your pharmacy or you can tell your pharmacist and they can add this nomination for you

Providing
NHS Services

Please contact our Reception or Admin team if you have any questions.
